# HEARING PROTECTION

Hearing is one of your most important senses and we would like to show you the best way to protect your hearing when you are at work. First and foremost 100% usage applies and to wear hearing protectors an entire day means they must fit perfectly and make you feel content and at ease.

## ZEKLER 412RDB & 412RDBH\*

Comfortable earmuffs with built-in FM stereo radio, level-dependent monitoring function and Bluetooth® wireless technology. Music streaming pauses and the FM radio is lowered for incoming calls; for safety reasons the level-dependent monitoring function is retained. Good attenuation for low, high and medium frequencies. Headband with fork-mounting and the wide sealing cushions give a constant head pressure and comfortable use.

# LIGHT WEIGHT HERO

Super light protective eyewear to provide the ultimate fit. Thanks to the weight of 1.6 grams together with the fit gives a feeling and perception that you do not wear any glasses, an important aspect for us in the work to get more people to really protect themselves at work.

## **ZEKLER 36 - HI VIS**

Lightweight safety spectacles in a stylish design with thin side pieces. Weight 1.6g. Nose bridge and lens in polycarbonate, where the lens is also provided with scratch and fog protection and UV protection. A tight fit for increased comfort and protection in combination with hearing protection.

At Zekler we specialize in hearing protection, eye protection and respiratory protection. We believe that personal protective equipment shouldn't get in the way of you doing your job – it should make your working life easier. This is why our products are not only designed to keep you safe but to stay focused as well. Discover Zekler and enjoy safety.

# safety above the neck

**ZEKLER 71** Stylishly designed with clean and simple lines combined with high wear resistance, comfort and function. The shells are designed to be so thin as possible, it improves the tightness of the ear when using earmuffs while making the glasses extra comfortable to wear. The model has a soft and malleable nose bridge for added comfort. All lenses for the Zekler 71 are both scratch and fog protected and can handle UV 400. Available in clear, yellow and gray lens.

THE  
NORDIC  
LINE

**ZEKLER 72** Frame with a clean and streamlined design. The material choices are made to create as low total weight as possible in combination with high wear resistance. The thin shells not only make the model sit comfortably, but also the glasses close tightly to the ear when using earmuffs. A soft nose bridge provides extra comfort. All lenses for the Zekler 72 are both scratch- and fog-proof and can withstand UV 400.

THE  
NORDIC  
LINE

**ZEKLER 73** is a further development of Zekler 71. The model is based on the same classy expression but has more setting options to not only its good - but perfect. Among other things, the lens angle is adjustable and with the help of an innovative locking mechanism it can be locked in its position. Thanks to this, the glasses will retain their setting - even if they are worn in the pocket, for example. For further customization, the length of the skull is adjustable and the nose bridge moldable to provide optimal fit regardless of face shape. All lenses for the Zekler 73 are both scratch- and fog-protected and can withstand UV 400.

With all new powerful speakers and great connectivity, 412S will make you look forward to wearing hearing protectors.

↑  
Protection class FFP2

**ZEKLER 1502, 1502V** A high performance mask with very high filtration efficiency and protects against fine dust and particles during one work shift (NR). The exhalation valve efficiently ventilates moisture, heat and carbon dioxide and provides a comfortable use. The premium mask is available in two sizes for exceptional comfort and optimal fit. For the highest possible safety – even for people wearing glasses.

**ZEKLER 1503V** Samma fördelar som på 1402V med en högre skyddsklass FFP3.

Protection class FFP3

**Zekler 401, 401H\*, 402, 402H\*, 403 & 403H\***

Hearing is one of your most important senses and we would like to give you the best way to protect your hearing when you are at work. First and foremost 100% usage applies and to wear hearing protectors an entire day means they must fit perfectly and make you feel content and at ease. This passive hearing protection comes in three levels.

**LEVEL 1** Good attenuation that suits a low noise level in industrial environments. Especially good attenuation at medium and high frequencies.

**LEVEL 2** Higher attenuation in both low and high frequencies, for a more demanding noise environment.

**LEVEL 3** Extra high attenuation particularly medium and low frequencies.

Small and large  
↓

**ZEKLER 802 S & L**

Disposable earplug in sizes Small (S) and large (L) to fit most ear canals. The material's composition allows the earplug a well-balanced expansion.

**ZEKLER 922L** Formgjuten flergångspropp i TPE-material, helt utan silikon. Proppen har styvt skaft men mjuka, följsamma flänsar. Materialet mjuknar av kroppsvärmen, vilket gör att proppen anpassar sig snabbt efter hörselgången.

**ZEKLER 901**

Lightweight earplug where the strap is worn under the chin. The oval earplug fits the ear canal opening and provides a comfortable level of protection which sits properly in position.
